### VALLEY HEALTH RADIOLOGIST APPOINTED TO AMERICAN OSTEOPATHIC COLLEGE OF RADIOLOGY BOARD OF DIRECTORS

*Dr. Frederick White will serve as President Elect through April 2011*

Valley Health System radiologist Frederick White, D.O., is serving as the President Elect of the American Osteopathic College of Radiology (AOCR) for a term that will end in April 2011. He will be sworn in as President unless the current president elects to serve a second term. If this occurs, Dr. White will serve a second term as President Elect and then proceed to the Presidency in April 2012.

“It’s an honor to serve in a leadership role for an organization that is focused on quality by promoting excellence in education,” states Dr. White. “Representing the San Jacinto and Menifee valleys also allows me to promote our area to colleagues and graduates who may seek our communities to practice in the future.”

Dr. White, who serves on the Medical Executive Committees of both Hemet Valley and Menifee Valley Medical Centers, became a member of the AOCR in 1981 and was elected to the Board of Directors in 2001. He has served on numerous committees including the Committee on Continuing Post Graduate Education, serving as Chairman from 2000 to 2008. He currently serves on the Strategic Planning Committee, the Finance Committee, and held the Office of Treasurer for two years. In October he was elected to the Board of Trustees of the AOCR Education Foundation. He was awarded Fellowship in the AOCR in 2003.

The AOCR is a not-for-profit organization established in 1941 as the principal organization serving osteopathic radiologists. The AOCR is committed to advancing the practice of radiology by promoting excellence in education, research and the delivery of quality, cost-effective healthcare while embracing the tenets of osteopathic medicine.
